Third Hand Bike Partnership

Lack of transportation is one of the largest barriers youth experiencing homelessness face when attempting to access help. Star House is excited to announce its partnership with Third Hand Bikes to get bikes, lights and U-locks youth need to get where they need to go and keep themselves and their bike safe but we need your help!

Third Hand has generously agreed to give 1 bike a week to a youth at Star House but is in need of bike donations and volunteers. Please contact Star House about donating a bike(s) by calling the Volunteer Services Director at (614)753-5833. For more information about volunteering, please contact Third Hand Bikes at (614)299-2984.
